### WHAT ABOUT MARIE'S INCOME TAX? REVENUE OFFICIALS COGITATING

Washington, D. C., Oct. 19.—[Special.]—Qovernment officials, especially those of the treasury department, are passed on the question of whether or not the income tax law will apply to money which may be paid to Queen Marie by American p. hillsbers, manufacturers, and others.

There have been consistent reports that the Roumanian victor is receiving offers of large sums of money for special articles for press syndicates, that manufacturers of articles running all the way from automobiles to tollet preparations are seeking to give her majesty huge bonuses for indorsement of their products, and that the movies are making proposals that she enter that field.

An ordinary allen individual is subject to income tax on sums derived within the United States. The 'am provides that all alien individuals musfile a return on such amounts. However, one of the highest officials in the treasury says they collect nothing whatever from diploinats, whether derived within or without this country. This official said the queen would come within the status of a diplomat and as such is exempt from laws governing tax, immigration, prohibition, auto speeding, and almost any other law.

On the other hand, Alexander Gregg, counsel for the internal revenue bu-

eau, said:
"We will have to study some interational law, but in the meantime we fill make no plans to collect a tax."

### EVANSTON PADS MILK WAGON SO TOWN CAN SLEEP

Evanston must have its sleep. The rattle of the milk wagons in the early hours, the clump, clump, clump of the horses' hoofs on the pavement, the creak, creak of the springs—all these must be eliminated. At a meeting of the Evanston city council last night an ordinance was introduced requiring all dairy companies to rubber tire the wheels of their wagons, to put rubber horsestocs on their horses, and to keep the springs well oiled and greased. It will come up for passage in two weeks and the councilmen say it will probably be passed.

# It's Very Simple

The clothing scene presented in the daily papers is one to strike dismay in the stoutest heart. On one page you are belabored with a performance of panicky prices and on the next you are besieged with an outburst of advertising oratory.

Here the matter is very simple. We don't weave fabrics. We don't make clothes. We don't presume to tell anybody how to do either. We simply sell clothes, only one brand, the brand that faithfully served the nation long before most of the hurrah stores came to town. It still guarantees satisfaction or money back.

# Cedarwood Two-Trouser Suits, \$50

In pattern beauty, fabric quality, style taste, and tailoring skill, these suits are comparable with garments that ordinarily sell at fifty per-cent more. Single and double-breasted models, sold with an unqualified guarantee of satisfaction, featured here at \$50.

# Carr-Melton Overcoats \$85

This overcoat will make its strongest appeal to the man who usually pays a tailor \$125 to \$150 for a winter overcoat. Hand tailored of genuine Triple X Isaac Carr Meltons, full satin-lined, single and double-breasted styles, a most unusual value at \$85.

# LONG SERVICE— LOW OPERATING EXPENSE

THE old idea that only the favored few could afford to own really fine cars is passing into the discard. Packard Six sales prove it.

Every year a larger proportion of Packard Six sales are made to those who have owned a long procession of lower-priced cars and who at last have recognized the real economy of investing in first class transportationand using all of it.

The Packard Six owner finds it easy and desirable to take from his car the long years of use built into it. For Packard engineering provides for the protection of the Packard's operating efficiency in the hands of owners. The motor oil rectifier assures constant, proper lubrication of the engine with a minimum of troublesome oil changes. A daily pull of the convenient plunger is all that is required to give chassis

parts the long life insured by thorough, frequent oiling.

The long-established Packard policy of protecting the owner's investment through preserving traditional Packard lines has just been again evidenced in the new and improved cars. They are more beautiful-true-but still distinctively Packard. Thus recent Packard owners are not tempted to buy new cars.

And when the uniformly low, standardized Packard service charges are considered, it is no wonder that economy itself as well as the natural desire to own a car of real distinction is turning more and more buyers to Packard.

Have you experienced the thrill of driving the new Packard Six? We will be glad to have you do so. Let us send the model you prefer to your door tomorrow. Prices are unchanged. The five-passenger sedan is still but \$2,758 delivered.

## THANK YOU FOR MAKING OUR 51st ANNIVERSARY SALE SO GREAT

TO the hundreds of thousands of people who have visited The Fair during our Fifty-first Anniversary Sale, this is a public expression of appreciative thanks on behalf of the officers and directors, the six thousand and more stockholders in the Fair, our energetic force of co-workers, and department managers.

The sales of our Fifty-first Anniversary Sale were considerably more than the sales of our Golden Jubilee of last year. And we believe that each sale meant a friend for The Fair.

It was a busy time-every hour of it-but always a pleasant time. And we all thank our patrons for making it so.

Now we are launched upon the days that constantly grow busier, culminating in the holiday "rush." The store has proved that it can care for a multitude.

We shall not be unmindful of the confidence reposed in us and the responsibility placed upon us by the public approval we have received.

Mr. Safford thought there was nothing new in that. He said that the political contributions of corporations had been an evil and that it was one which ought to have been dealt with before. He was willing to allow it to go at that.

PROHIBITION MORALITIES.

Senator Reed was interested in the public morality ideas of the state prohibitionists who are supporting Frank L. Smith because he is a dry. He had Mr. Safford of the Illinois Anti-Salcon league on the witness stand and he tried to find out what Mr. Safford as superintendent of the league and a leader of the drys thought of Mr. Smith's nothing of it.

There is one I know who not value sought beauty in the shattered woods where death rode, triumphant, a mad course. And out of the horrible patter of the leaden rain which fell there he made wild music, unearthly sweet, and little songs for maids to be humming at dusk or dawn or when the moon rides high. It is for remembering of these things that men would grow old beyond the time when love no longer beckons and when dreams only remain or the petals of a faded rose. But one fair like a crystal ball lustrant in moonlight wove a spell about the heart of the rose. But one fair like a crystal ball lustrant in moonlight wove a spell about the heart of the singer so that now there is a poignant joy in his singing which dims the shrill voices of the shattered woods. A slim gray tower shall recall these things when even they are beyond remembering a song at midnight or a kiss at dawn.

The magnificent endowments of our great Universities are not gifts of the Vainglorious, but the silent well-wisher -the man of deeds, not words.

And in this connection, the spirit of fairness prompts us to commend the executive committee of the Michigan Avenue Association, for invaluable services rendered in perpetuating the progress of this world-famous business thoroughfare.

London "points with pride"-ah, Bond Street. Paris "rises to present"-of course, the Rue de la Paix. New York broadcasts the charms of throbbing, thriving Fifth Avenue. But, when Michigan is reached -our own Michigan Avenue-comparison ceases and loyalty exercises its prerogative.

Michigan Avenue is the "heart-beat" of Chicago-the main artery through

which flow its finer commercial activities. The Wrigley Building, the Tribune Tower, and similar edifices of the skyscraper type, are but episodes in its rapid growth and development.

[Chlease Tribene Free Service.]

OSLO, Norway, Oct. 13.—Prohibition received a smashing defeat as a result of yesterday's referendum. The results from several districts are yet to be received. The country districts above a big wet majority.

The totals to date are \$15,554 wet and 407,053 dry, a gain of more than 200,000 for the wets as compared with the previous referendum.

The results are regarded here as meaning that the prohibition experiment has been found unsuitable to Norwegian conditions, the general opinion being that the people are poorer and there is more drunkenness. It is expected that the law will be quickly repealed by the storthing.

Expect Ontarie to Go Wet.
[Chicago Tribene Frees Service.]

Toronto, Ont., Oct. 19.—Ontario is bubbling with excitement following the sudden plunge back to booze by the provincial government. It is already taken for granted that Premier Ferguson's administration will be sustained in its wet appeal and interest centers as the system of government control that the premier will adopt.

He stated today that every adult would be entitled to secure an annual permit on which would be mara'ed the amount of liquer purchased. A aystem would be devised so that tourists from the states and other transients will be able to purchase liquor. While the parts of the province that remain dry will be protected by a local option system, wet residents of the dry greas will be able to have booze legally shipped to them. Hotels and alube will sell any strength wine and beer.

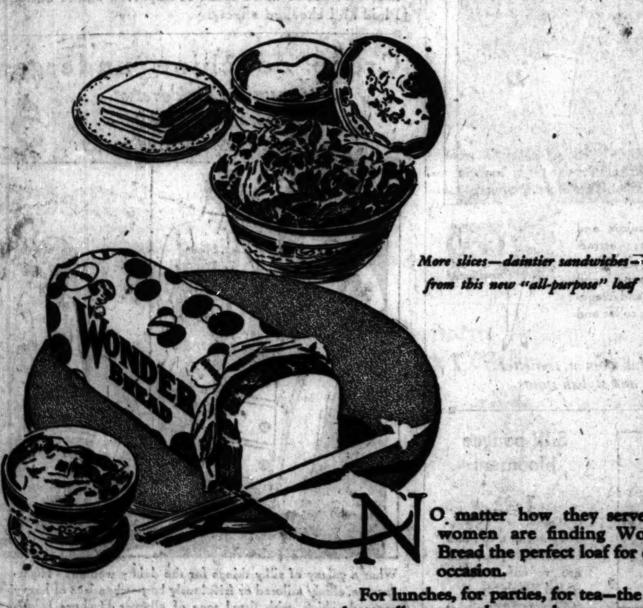

Plans to Cui Taxes.

With the liquor profits Mr. Ferguson proposes to reduce taxation. He has announced a cut in the cost of auto licenses and amusement taxes on theater tickets and will increase the exemption on municipal income taxation from \$2.000 to \$3,000. The municipalities will be reimbursed by direct grants from province for the cut in this source of revenue, and thus all taxpayers of

SO We measured quantity

~ The quality of Globe ~ Democrat
Financial and Market News has
always been acknowledged

BIG MORNING NEWSPAPER in a wealthy district simply has to offer excellent financial and market news service. The Globe-Democrat found that out long ago.

It's a definite responsibility.

Here is St. Louis—a big industrial city in one of the wealthiest agricultural sections in the nation....the banking and marketing capital of the Eighth Federal Reserve District....the seat of one of the Federal Land Banks, too .... a big investment center .... with stock and grain exchanges and close contacts with other big markets...and with dollar-contacts with hundreds of tributary towns throughout this district.

Indispensable to Bankers and Business Men

Now bankers and business men and farmers and stock raisers depend upon institutions like the Globe-Democrat for ready and accurate information as to market quotations.

For instance, we know that the Globe-Democrat is read by executives in 80.1% of the banks in The 49th State and in 68.4% of the banks in the Eighth Federal Reserve District.

Naturally.....We have taken special pains to build up and improve our Financial and Market Pages. That's our

And, as the responsibility has grown, we have added and added to these pages. New features. More features. Bigger scope. Better, more comprehensive service.

People who know have been telling us that our Financial and Market Pages were among the very best in the country... and that has made us prouder than ever of this

We were proud of the quality of this service.

But we didn't realize really how big a job we were

... Until, just for a test, we measured the quantity of our Pinancial and Market News....and compared it with that of other newspapers.

A Striking Comparison with Other Big Papers

For purpose of comparison, computation was made on four highly active market days, in February and March, 1926, but the general average immediately preceding and following this period is practically unchanged.

In a group of twenty of the best known newspapers (both morning and evening) in the nation, the Globe Democrat morning and evening) in the nation, the Globe-Democrat ranked among the first six in the average daily volume of financial and market news.

Only in New York, Philadelphia, Boston and Los Angeles were the figures tabulated in excess of those of the Globe-Democrat.

It is to be noted that the comparison with the other great metropolitan papers demonstrates most conclusively ST. LOUIS GLOBE-DEMOCRAT pre-eminence as the MARKET PAPER, not only of the Eighth Federal Reserve District, but of the Middle West.

In ST. LOUIS ALONE the Globe-Democrat carried more financial and general market news and features of in-terest to the banker, broker, business man, farmer, investor and the general reading public than the second and third local papers combined.

And the Globe-Democrat naturally carries more Financial Advertising than all other St. Louis newspapers combined

Such is the medium offered in the St. Louis market for investment advertising. Imagine the influence of your message when it shares the influence of this great pe

There have been hostesses who have built beautiful table schemes from a rare and lovely piece of china, an exotic flower preference or a joy in a certain color. Whatever the starting point in this interesting game of creative table arrangement, the decorative tone is finally established by the centerpiece and service plates. They may harmonize in color or pattern or feeling (as do the Spode and Cauldon in the illustration) or they may contrast vividly. The combination becomes brilliant or dignified, modern or expressive of some period, depending upon the choice. Choose, then, these important pieces from selections which permit an indulgence in decorative interest and mood.

# Believing

A simple account of the great religions of mankind that is preeminently for the reader who is intellectually curious about the world he lives in. Lewis Browne analyzes in a sparkling way the faiths and beliefs which have won the loyalty of man in all times and places,he makes a living story of ancient religions, Buddhism, Confucianism, Zoroastrianism, Judaism, Christianity, Mohammedanism and minor systems. The lives of the great founders and their principal prophets are woven into a readable, vibrant survey of the structures they erected.

# The Only Boiler Especially Designed for Oil Heat

The Bryan Oil-Burning Boiler

The Bryan Oil-Burning Balls may be purchased out of index -25% cosh, balance 13 months

Back of the development of the Bryan Oil-Burning Boiler is the fundamental principle that an oil burner can operate with maximum efficiency and economy only in a boiler designed specifically for oil heat.

Until Bryan contributed this first practical Oil-Burning Boiler, oil burners have been handicapped by being used in beilers designed not for oil but for coal. Obviously under such conditions they have been unable to wield the economy and efficiency which they are intended to produce.

The Bryan Oil-Burning Boiler offers exclusive features which are destined soon to be universally recognized as standard for oil heating purposes.

Designed expressly for oil burners, the Bryan Oil-Burning Boiler saves 30 to 50 percent in oil consumption, thus bringing oil heat for the first time down below the cost of coal.

Even with this drawback, the old Marcon standbys are dear to the hearts of the Midway fans, since they recall that John Thomas, using the same play five times, covered sixty yards to score a touchdown on Princeton in 1922.

How It Works—If Any.

These who really know the Morcon to make it an innovation in footbell:

Those who really know the Marcon plays are thrilled by all of them. There is the play where one half back drives for right tackle, while the opposing center goes through and picks him off before he gets there; and the play where the full back heads for the middle of the line and runs into a pile of players; or the forward pass, where the passer twists around three times and tosses the ball just over the receiver's head, while three other eligi-

New York, Oct. 19.—[Special.]—Harry Wills was suspended for thirty days today by the New York state athletic commission for fouling Jack Sharkey in their fight at Ebbeta field, Oct. 12. The suspension was practically automatic, as a similar punishment is dealt out to all fighters who infringe upon the rules in bouts in New York state.

Sharkey today filed a challenge with the commission for a championship match with the title holder, Gene Tun-

### FINANCIAL NOTES

# A Record that Allows No Compromise with Safety

EXAMINE any great business—dig deep down to fix upon the fundamental reasons for its success—and you will find the structure has been raised upon a code of prime integrity. No successful business ever has been built otherwise, and never will be.

This is particularly true in the investment bond business; these houses which have attained commanding position have earned their place through adherence to certain principles which make for safety of invested funds, and the records they have created stand as the most valuable assets at their command.

The Straus Record is plainly written - "Fortyfour Years Without Loss to Any Investor." This record means sound principles faithfully adhered to. It means long and wide experience; mature knowledge and judgment; ample financial responsibility.

This record has been a guide to safety and satisfaction for thousands of investors. We suggest that you follow their example and investigate the Straus Plan and Straus Bonds. As a first step, call or write for

MERCANTILE TRUST COMPANY OF CALIFORNIA and CHARLES R. BLYTH, TRUSTEES

Mr. John S. Drum has summarized his letter to us as for

Company: The Mercantile American Realty Company is being organized under the laws of Delaware, to acquire and operate the real properties now owned and occupied as banking premises by the Mercantile Trust Company of California and the real properties now owned and occupied as banking premises by The American Bank. The Company may acquire additional real properties.

Properties: The properties to be acquired by the Mercantile American Realty Company comprise more than 50 parcels of real property located in the San Francisco Bay area. These properties include among others: the principal office of the Mercantile Trust Company of California, 464 California Street; the Canadian Bank Building, 454 California Street; the 10-story American Bank Building, California and Montgemery Streets; the Savings Union Building, Market Street and Grant Avenue; the Hastings Building, 418 Montgomery Street, and the Buckbee Building, 416 Montgomery Street, in San Francisco; the 11-story American Bank Building, 16th Street and San Pablo Avenue, in Oakland; the recently completed 12-story Berkeley Chamber of Commerce Building, Shattuck Avenue and Center Street, and the former First National Bank Building, 2195 Shattuck Avenue, in Berkeley; the former Bank of Alameda Building, Park Street and Central Avenue in Alameda; and a number of properties occupied principally by branch offices of the Mercantile Trust Company of California, or the American Bank, in San Francisco, Oakland, Berkeley, Alameda, Emeryville, San Leandro, Richmond, Pittsburg, San Jose, Santa Clara, Santa Rosa, Petaluma, Palo Alto, Burlingame, Newman, Martinez, and other cities in the San Francisco Bay area.

Lease: The Company will agree, upon acquisition of these properties, to lease them to the Mercantile Trust Company of California and/or to The American Bank, or to their successor, for a period of 25 years from October 1, 1926. The lease or leases will provide that the Mercantile Trust Company of California and/or The American Bank, or their successor, will pay a rental which will be sufficient to meet operating expenses and taxes of the Realty Company and, in addition, a net sum of \$800,000 per annum, sufficient for interest and sinking fund requirements on outstanding bonds and dividends and annual redemption requirements on outstanding preferred stock. The lease, or leases, will provide that in event additional properties are acquired by the Realty Company and utilized as

erties owned or acquired, such additional properties or improvements shall be leased to the Mercantile Trust Company of California and/or to The American Bank, or to their successor, for a net sum sufficient to pay interest and provide for sinking fund requirements on such additional bonds as may have been issued for the purpose of acquiring such additional properties or placing improvements on prop-

Additional Bonds: Additional authorized bonds may be issued only for the purpose of acquiring additional properties, or the placing of improvements on properties owned, in amounts not exceeding 60% of the cost of such properties, or improvements, provided, however, such additional bonds shall be approved as legal for investment by savings banks in California.

All legal proceedings incident to the issuance of these bonds will be taken under the supervision of Mesers. Brobeck, Phileger & Harrison and Mesers. McCutchen, Olney, Mannon and Greene for the Company, and Mesers. Chickering & Gregory for the Bankers.

We offer the above bonds when, as and if issued and received by us, and subject to approval of counsel. Delivery will be made in the first instance in the form of cach-secured interim receipts of Blyth, Witter & Co., to be exchanged for definitive bonds when ready.

The Company will make application to list this issue of bonds on the San Francisco Stock and Bend Exchange.

# DECLINE SHOWN IN DISTRIBUTION OF MERCHANDISE

BY O. A. MATHER. though the railroad movement of modities continues to be the great

commodities continues to be the greatest on record for this season of year,
there appears to be a slight falling off
in the distribution of merchandise. Recent mercantile reviews have attributed this to adverse weather in various parts of the country.

The railroads last night reported loadtens of records at 155 52 cm.

The railroads last night reported loadings of revenue freight at 1,184,852 cars for the week ended Oct. 9. This is a decline of 662 cars from the preceding week, but an increase of 78,826 over the same week last year. It also marks the twentieth "million car week" thus far this year and maintains the average of more than 1,000,000 cars a week since the first of the year.

Decline Since September.

But the current report shows a slight ecline from the last week of September in spite of the fact that coal loadings increased 1,875 cars, and loadings f coke and live stock also increased. herefore, there were sizable declines in il other commodities, including merhapdies.

A large volume of trade and continuation of industrial activity at its present level are in prospect for the remainder of this year, according to the National City bank of New York. The situation in the southern states, while in a degree depressive, need cause no extraordinary alarm, as the weight of the new cotton crop falls evenly on the whole south and not, as at previous times, on some part of it. The south has probably never before been in better position to take care of such a crop in orderly fashion, having anjoyed presperity, reduced debta, and accumulated working capital.

American Radiator Raises Dividend.
Further evidence of corporation property appeared yesterday. The American Radiator company increased its common stock annual rate from \$4 to \$5 by declaring a quarterly payment of \$1.25. Sales and profits thus far this year exceed those for the same period last year, it was announced. The National Biestit company declared an extra dividend of \$1 on the common stock and announced that het profit for the first nine menths of this year was \$11.254.721, compared with \$10.371.525 for the same period last year. The Armstrong Cork declared a 5 per cent stock dividend on the common stock.

Stockholders of the Public Service Corporation of New Jersey approved in-

dividend on the common stock.

Stockholders of the Public Service Corporation of New Jersey approved increasing the capital stock from \$100,000,000 to \$300,000,000 of preferred and from 2,000,000 to 10,000,000 shares of no par common stock. Three new common shares will be exchanged for each old share.

Ams L. Beatty, chairman of the new Texas corporation, said a few stockholders had falled to understand why the new corporation had \$250,000,000 authorized stock and what would be done with the \$85,850,000 of it remaining after exchange of the present \$164,450,000 stock of the Texas company. He explained that the excess stock could be sold for cash or lisued for property. In either case the value of the stock first outstanding is maintained.

standing is maintained.

"If, as another alternative, it should be decided to distribute this stock or some of it to stockholders as a stock dividend, "the rule of equality and fair dealing would apply," he said.

Another increase in petroleum produc-

Another increase in petroleum production took place last week and led to rumors of an impending cut in crude oil prices, particularly in the midcontinent field. The daily average gross crude oil production was 3,234,155 barrels an increase of 29,550 barrels a day over the preceding week. Output eart of California increased 24,150 barrels a day.

COTTON PRICES HIGHER

Cotton prime were higher early with reports of a hurricane of great intensity in the Cartiblean moving northwestward, but the late break in the stock market led to general selling and a sharp decline with the finish here at not losses of 8613 points. Weather conditions over the belt were distinctly favorable, although the forecast was for unsettled over a wide area. Government report next Theselay will omit the cenditional figures and give only the estimated yield with the census report on gioning to Oct. 16. The cotton conference was on at Washington with forestaries Melien, However and Jardine shed President Cooling. The proposition of removing 4,000,000 bales from the market was discussed. It is to be for 18 months, coupled with a reduction in acreage and extension of long term credits. Secretary Mellen is disposed to extend the credit features of the Me-

uncheon meeting at the residence of Mrs. H. C. Dewey in La Grange today.

By Edna Wallace Hopper

The thousands who see me daily on the singe wonder at my beautiful hair. It is wavy, glossy and abundant. Nearly everyone thinks that some wonderful hairdresser gives it daily care.

Not so—I'm too busy for that. I never go to a hairdresser, have never had a Marcel wave. I simply apply twice weekly a hair dress which great experts made for me. It is not sticky, not greasy. Before they made it I never go to a hairdresser, have never had a Marcel wave. I simply apply twice weekly a hair dress which great experts made for me. It is not sticky, not greasy. Before they made it I never dreamed a liquid could do so much. Now all toilet counters supply it as Edna Wallace Hopper's Wave and Sheen. The price is foc.

Nothing else I know gives a girl or woman so much added loveliness at once. No one can resist it when she knows. My guarantee comes with each bottle, so it costs you mothing if it

ou simply cannot state a given ount to cover a number of young ples. Standards of living are too able. Standards of living are too able. What is inxury to one bride necessity to another. On \$50 s k one couple can pay monthly dets on a home and have a saving ount, whereas another pair will edificulty meeting the rest for a lished room.

The tragedy of our day and age is that more young people are not trained to go without. From the time they are old enough to demand money for the movies they get it. The standard of living for the young working girl and boy is higher, as a rule, than is justifiable. The girl must have her chiffon hesiery, her rouges and powders, her protty dresses and amusements that are not inexpensive, according to her income. The young men are equally trained to spend. I cannot say I blame them much since I like my own laxifies as well as the next one. But all this business plays thavoc with early marriags.

As I say, it isn't the income so much the young couple need donsider as their ability to go without.
